

INDEX TO VOLUME 25

A

- Abbott, G. A., and Russek, H. I., 562*
- Abell, R. G., and Page, I. H., 711*
- Abramson, David I., Fierst, S. M., and Flachs, K., 328, 562,* 609
- Acetylcholine, cardiac inhibition of cladocean and action of, and physostigmine, 282*
- Acid base balance, influence of alterations in, upon transfers of carbon dioxide and bicarbonate in man, 716*
- Acidosis, systemic, and anoxemia, hypercapnia and alkalosis, quantitative alterations in hyperemia responses to local ischemia of smallest blood vessels of human skin following, 711*
- Adams, E. C., and Guion, C. M., 846*
- Adams-Stokes syndrome, 133*
- Adrenal gland, cortical extract from, efficacy of, and of paredrine in prevention of experimental shock following venous occlusion of a limb, 853*
- abnormal discharges from, in angina pectoris and their control by x-ray therapy, 134*
- preparation, artificial acceleration of heart, changes in temperature and hemorrhage, influence of, on turtle's heart, 559*
- effect of, on volume of blood, 141*
- Adults, patency of ductus arteriosus in, 158
- Age, elastic properties of rabbit aorta in relation to, 277*
- old, and blood pressure, 846*
- Aglycones, cardiac, action of simple lactones related to, 282*
- Albanese, A. R., Vedoya, R., and Videla, J. G., 844*
- Alkalosis, systemic, anoxemia, hypercapnia, acidosis and, quantitative alterations in hyperemia responses to local ischemia of smallest blood vessels of human skin following, 711*
- Allen, C. R., Stutzman, J. W., Slocum, H. C., and Orth, O. S., 140*
- Allen, J. G., Vermeulen, C., Dragstedt, L. R., Clark, D. E., and Julian, O. C., 426*
- Allen, J. R., Kaltreider, N. L., and Meneely, G. R., 141*
- Alles, G. A., Prinzmetal, M., Margoles, C., Kayland, S., and Davies, D. S., 425*
- Alpert, Samuel, 689
- American Heart Association, report of Committee of, on standardization of electrocardiographic nomenclature, 528
- second supplementary report of committee of, for standardization of precordial leads, 535
- Amphetamine sulphate in gelatin, prolonged effect of, 427*
- Anderson, Lucille R., and Hall, Ernest M., 64
- Anemia, resting peripheral blood flow in, 609
- Anesthesia, cyclopropane, cardiac arrhythmias under, 141*
- Aneurysm, dissecting, heretofore unrecognized stage of dissecting aneurysm and cause of cardiac pain and cardiac murmurs, 712*
- as cause of acute, local ventricular ischemia or impending infarction, 262
- of aorta with ante-mortem diagnosis, 407
- mycotic, and subacute bacterial endocarditis, complicating congenital subaortic stenosis, with deformity of aortic valve resulting in rupture of aorta into pericardium, 837
- of abdominal aorta with rupture into duodenum, 826
- of coronary artery, 423*
- subclavian, right, ligature of innominate artery for, 568*
- Angina pectoris, abnormal suprarenal discharges in, and their control by x-ray therapy, 134*
- and hyperthyroidism, 134*
- chronic, studies with ballistocardiograph in acute cardiac infarction and, 81
- Angiocardiography, 714*
- and its value, 298
- in congenital heart disease, 714*
- Angiotonin and renin, blood pressure of fetal rat and its response to, 850*

An asterisk () after a page number indicates the reference is an abstract and not an original article.

- Angiotonin—Cont'd
- effect of, and antipressor extract, methyl guanidine and tyramine on cardiac output as measured by ballistocardiograph in hypertensive and normal persons, 851*
 - effects on renal resistance to blood flow of, pitressin and atropine, hypertension and toxemia of pregnancy, 716*
 - formation of pressor substance with properties similar to, from action of crystalline pepsin on renin-activator, 415*
- Anomaly, cardiac, congenital, a case of isolated dextrocardia, 116
- chest leads in congenital and acquired dextrocardia, 562*
 - cor biloculare with persistent truncus arteriosus, 112
 - patency of ductus arteriosus complicated by subacute bacterial endarteritis, results of surgical treatment of, 187
 - in adults, 158
 - report of case of persistent common atrioventricular ostium, 123
 - truncus arteriosus solitarius with heterotopic pulmonary blood supply, 274*
- Anoxemia, systemic, hypercapnia, acidosis and alkalosis, quantitative alterations in hyperemia responses to local ischemia of smallest blood vessels of human skin following, 711*
- Antipressor kidney extract, effect of, and angiotonin, methyl guanidine and tyramine on cardiac output as measured by ballistocardiograph in hypertensive and normal persons, 851*
- Aorta, abdominal, aneurysm of, with rupture into duodenum, 826
- aneurysm of, dissecting, with ante-mortem diagnosis, 407
 - with rupture into pulmonary artery, 512
 - electrocardiographic changes after occlusion of pulmonary artery or, 843*
 - elongation of, juvenile, 404
 - human, study of elasticity and tensile strength of elastic tissue isolated from, 842*
 - incomplete rupture of, 712*
 - rabbit, elastic properties of, in relation to age, 277*
 - stenosis of, congenital, subaortic, with deformity of aortic valve, complicated by subacute bacterial endocarditis and mycotic aneurysm resulting in rupture of aorta into pericardium, 837
 - syphilis of, and coronary arteries, 563*
- Aortitis, gummatous, 709*
- Araya, Emilio, and White, Paul D., 449
- Argentina, heart disease in, 145
- Arteriosclerosis and certain allied disorders, quantitative responses of smallest cutaneous blood vessels to graded mechanical stimulation and to local ischemia in arterial hypertension and, 566*
- and hypothyroidism, observations on their possible interrelationship, 421*
 - and varicose veins, occupational activities and other factors, 138*
- fibrinoid necrosis in, 423*
- obliterans, effect of testosterone propionate in the treatment of, 852*
- Artery, coronary, and aorta, syphilis of, 563*
- aneurysm of, 423*
 - disease of, hyperactive cardioinhibitory carotid-sinus reflex as an aid in diagnosis of, its value compared with electrocardiogram, 273*
 - flow of blood in, effects of calculated therapeutic and toxic doses of digitalis on, 719
 - occlusion of, acute; cardiac efficiency and prognosis following recovery from, 848*
 - system of man, concerning the regulation of blood flow in, and possibility of its histologic proof, 139*
 - thrombosis of, 568*
 - acute, in industry, 279*
 - digital blood flow, arterial pressure, and vascular resistance in arterial hypertension and, 423*
- digital, reactions of, and minute pad arteries to local cold, 138*
- innominate, ligature of, for right subclavian aneurysm, 568*
- measurement of mean blood flow in, and veins by means of rotameter, 278*
- minute pad, reactions of digital artery and, to local cold, 138*
- peripheral, disease of, role of insulin-free histamine-free pancreatic tissue extract in treatment of, 486
- pulmonary, and aorta, electrocardiographic changes after occlusion of, 843*
- aortic aneurysm with rupture into, 512
- embolism of, with or without acute cor pulmonale with especial reference to electrocardiogram, 573
- pressure of, of turtle and one ventricle pump, influence of artificial acceleration of heart, changes in temperature, hemorrhage and epinephrine, 559*

- Artery, pulmonary—Cont'd
 stenosis of, and tricuspid stenosis complicating carcinoid of intestine with metastasis to liver, 391
 specificity of periarterial fibrosis of the spleen in disseminated lupus erythematosus, 137*
 stenosis of, with murmur recorded through esophagus in case of thromboangiitis obliterans, 256
- Ascorbic acid, effect of, on sensitivity to salicylates in rheumatic fever, 715*
- Asher, R., and Shleser, I. H., 853*
 —, Perlow, S., Katz, L. N., and Killian, S. T., 570*
 —, —, —, and Shleser, I. H., 567*
- Ashman, Richard, and Byer, Edwin, 16, 36
- Asmussen, E., and Chapman, E. M., 277*
- Asthma, bronchial, and cardiopathy, 134*
- Ataxia, hereditary, electrocardiogram in, 708*
- Atheromatosis, experimental, of rabbit, relationship of heart size to cholesterol content in, 706*
 pectin, and thesaurosis in rabbits and dogs, experimental studies in cardiovascular pathology, 713*
- Athletes, range of normal heart in, 613
- Atropine, effects of digitalis, urginin, congestive cardiac failure and, on hyperactive carotid sinus, 746
 pitressin and, effects of renal resistance to blood flow of, renin, angiotonin, hypertension and toxemia of pregnancy, 716*
- Auricle, left, puncture wound of, with tamponade and recovery, 693
 standstill of, 128
- B
- Baer, S., Lieber, M. M., and Goldburgh, H. L., 275,* 418*
- Ballistocardiograph, effect of antipressor kidney extract, angiotonin, methyl guanidine and tyramine on cardiac output as measured by, in hypertensive and normal persons, 851*
 studies with, in acute cardiac infarction and chronic angina pectoris, 81
- Bancker, E. A., Jr., 568*
- Barber, H., 708*
- Barker, M. H., Lindberg, H. A., and Thomas, M. E., 142*
- Barker, P. S., Johnston, F. D., and Wilson, F. N., 760, 799
 —, —, —, and Wishart, S. W., 765
- Barnes, Arlie R., Essex, H. E., and Dearing, W. H., 648, 665
 —, —, —, and Herrick, J. F., 719
 —, —, —, and Kernohan, J. W., 734
- Battle, F. F., Moia, B., Inehauspe, L. H., and Olmedo, R. C., 418*
- Bayley, Robert H., and Monte, Louis A., 262*
- Bean, William Bennett, 422,* 463
- Beckh, Walter, 307
- Bell, J., De Gowin, E. L., and Harris, J. E., 279*
- Bellis, C. J., 422*
- Benzol-adrenal test as reliable method of estimating changes in the sensitivity of dog's ventricles to fibrillation, application of method to study of quinidine sulfate, 58
- Beriberi heart in a 4-month-old infant, 845*
- Berliner, R. W., and Perera, G. A., 849*
- Bessey, O. A., and Swank, R. L., 560*
- Birth, premature, relationship of congenital heart disease to, 449
- Bliss, C. L., Robbins, E. B., and Chen, K. K., 281*
- Blood, biochemical studies of, in atheromatous animals, 282*
 electrolyte changes in, in heart-lung preparation with special reference to effects of cardiac glycosides, 570*
 flow, coronary, effects of calculated therapeutic and toxic doses of digitalis on, 719
 regulation of, and possibility of its histologic proof, 139*
 digital, arterial pressure and vascular resistance in arterial hypertension and in coronary thrombosis, 423*
 effects on renal resistance to, of renin, angiotonin, pitressin and atropine, hypertension, and toxemia of pregnancy, 716*
 in hand and forearm after paravertebral block of sympathetic ganglia, 559*
 in limbs, effects of changes in venous pressure, 631
 mean, in arteries and veins, measurement by rotameter, 278*
 peripheral, rate of, in presence of edema, 328
 resting, in anemic state, 609
 velocity of, in infants and young children, determined by radioactive sodium, 424*
- human, stored in dextrose solutions and in other mixtures, rates of hemolysis in, 279*
- plasma, loss of prothrombin activity in, exposed to air currents, 415*

Blood, plasma—Cont'd

- venous, renal, vasoconstrictor and angiotonin-neutralizing properties of, 682
- volume of, changes following intravenous injection of pectin and physiologic saline in man, 282*
- pooling of, in varicose veins, causing dyspnea, dizziness and precordial distress, 277*
- pressure and old age, 846*
- arterial, digital blood flow and vascular resistance in arterial hypertension and coronary thrombosis, 423*
- systolic, in rats, production of experimental hypertension and indirect determination of, 137*
- capillary, direct measurements in digits during induced vasoconstriction, 564*
- direct measurements in digits of patients with Raynaud's disease and scleroderma before and after sympathectomy, 812
- in man, direct measurements in digits during arterial hypertension induced by paredrinol sulfate, 711*
- in man, direct measurements in the digits of normal and hypertensive subjects during vasoconstriction and vasodilatation variously induced, 710*
- effect of sodium nitrite upon, in unanesthetized hypertensive rats, 283*
- of fetal rat and its response to renin and angiotonin, 850*
- of normal subjects, effect of peripheral vasodilatation on vasoconstriction, determinations made on, 564*
- reduction of, associated with pyrogenic reaction in hypertensive subjects, 136*
- restoration of, by renin activator after hemorrhage, 426*
- sulfocyanates and, 715*
- systolic, arterial, indirect determination of, and production of experimental hypertension in rats, 565*
- venous, effects of changes in, upon blood flow in limbs, 631
- mechanism of, during course of surgical procedures, 424*
- normal, action of various drugs on patients with normal intramuscular pressure and, 424*
- portal, in man, 422*
- relation of postural dilation of, to paroxysmal dyspnea, 849*
- supply, normal, of Keith-Flack node, 425*

Blood—Cont'd

- vessels, circular, finer structure of, especially finding of autonomic stretches of blood vessels in human heart, 707*
- cutaneous, smallest, sensitivity of, 566*
- in finger, reactions to cold, vasomotor components in, 138*
- intact, reactivity of, of fingers, and toes to sensory stimuli in normal resting adults, in patients with hypertension and in senile subjects, 565*
- peripheral, of normal, hypertensive and senile subjects, influence of character of examining room on, 565*
- smallest, of human skin, local ischemia of, quantitative alterations in hyperemia response to, following systemic anoxemia, hypercapnia, acidosis, and alkalosis, 711*
- volume, application studies of, to theory of mechanism of diuresis, 132
- effect of epinephrine on, 141*
- Bloom, N., and Markham, J. D., 275*
- Body fluid, change: in, in neurogenic hypertension and total paravertebral sympathectomy, 564*
- temperature of, role of viscera in regulating, under physiologic and pathologic conditions, 272*
- Bondy, P. K., and Altschule, M. D., 569*
- Book review
- La Digital, 427
- Bordley, James, III, and Eichna, L. W., 710*
- Bradycardia and cardiac standstill, hemiplegia following, 244
- Brain, motor cortex of dog's, cardiovascular changes induced by stimulation of, 272*
- Bramwell, C., 140*
- Braun-Menendez, E., and Huidobro, F., 416*
- Brenizer, A. G., Jr., Cope, O., and Polderman, H., 416*
- Brown, G., Friedfeld, L., Kissin, M., Modell, W., and Sussman, R. M., 143*
- , Klein, C., and Burstein, J., 716*
- Brown, Morton G., 686
- Bruger, M., and Rosenkrantz, J. A., 421*
- Buehler, Martin S., and Fahr, George, 211
- Burch, G. E., Cohn, A. E., and Neumann, C., 565*
- Burchell, H. B., 561*
- Burlingame, P., Long, J. A., and Ogden, E., 850*

- Burrett, J. B., Graybiel, A., White, P. D., and Hartwell, A. S., 280*
- Burstein, J., Brown, G., and Klein, C., 716*
- Byer, Edwin, and Ashman, Richard, 16, 36
- C
- Calabresi, M., and Geiger, A. J., 558*
- Calotropis, digitalis-like principles of, compared with cardiac substances, 281*
- Calvin, D. B., Herrmann, G. R., and Decherd, G. M., Jr., 132*
- Campbell, M., 852*
- Capillary, permeability of, and adrenal cortex studies of cervical lymph in the adrenalectomized dog, 416*
- Cardio-angiography (*See* Angiocardiography)
- Cardiologist, wartime problems of, 140*
- Cardiology, further investigation concerning the interpretation of prolonged circulation time in, 139*
- Cardiovascular system, action of furmethide (furfuryl-trimethyl-ammonium iodid) on, 569*
- changes in, induced by stimulation of motor cortex in dogs, 272*
- disease of, in industry, 140*
- effects of experimental insomnia on, 842*
- radiation on, 850*
- experimental pathologic studies in, 713*
- syphilis in, serologic reaction in, 397
- Carditis, some aspects of, 563*
- Carotid sinus, hyperactive, effects of digitalis, urginin, congestive cardiac failure, and atropine on, 746
- Carotid-sinus reflex, hyperactive cardio-inhibitory, as an aid in diagnosis of coronary disease, its value compared with electrocardiogram, 273*
- Castellanos, Agustin, and Pérez de los Reyes, R., 298
- Castleden, L. I. M., and Hamilton-Patterson, J. L., 563*
- Caviness, Verne S., 128
- , and Turner, H. G., 693
- , and Umphlet, T. L., and Royster, C. L., 715*
- Central nervous system, effect of calculated therapeutic and toxic doses of digitalis on cellular structure of, 734
- Chapman, E. M., and Asmussen, E., 277*
- Chasis, H., Goldring, W., and Smith, H. W., 136
- , and Redish, J., 846*
- Chen, K. K., Bliss, C. I., and Robbins, E. B., 281*
- , Steldt, F. A., Fried, J., and Elderfield, R. C., 282*
- Chest, deformity of, right-sided heart failure caused by, 399
- injuries to, nonpenetrating, trauma of heart due to, 850*
- Children, rheumatic nodules in, an evaluation of, clinical study of 167 cases, 135*
- Chippis, H. D., 423*
- Cholesterol, content of, relationship of heart size to, in experimental athermatosis of rabbits, 706*
- effect of administration of lipocaine and, in rabbits, 426*
- Christian, H. A., 846*
- Chu, H-N., Hsu, S-H., and Hwang, K., 272*
- Circulation, congestion of, produced in dogs by rapid infusion, 849*
- digital, in peripheral vascular diseases, 423*
- (hyper- and hypokinemia) amount of, abnormalities of, and their relation to neurocirculatory asthenia and kindred diagnoses, 707*
- in forehead, absence of vasoconstrictor reflexes in, 278*
- intrahepatic, of blood in intact animal, effect of stimulation of autonomic nerves on, 415*
- overloading of, after intravenous injections, 842*
- peripheral, in patients with valvular heart disease, effect of muscular exercise on, 562*
- physiology of embryonic mammalian heart before, 416*
- time of, prolonged, further investigation concerning interpretation in cardiology of, 139*
- Cladoceran, cardiac inhibition of, and action of acetylcholine and physostigmine, 282*
- Clapper, Muir, Myers, G. B., and Weed, M. R., 547
- Clark, D. E., Julian, O. C., Allen, J. G., Vermeulen, C., and Dragstedt, L. R., 426*
- Climenko, D. R., and Gorham, L. W., 486
- Coelothelioma, benign, of Tawara's node, 710*
- Cohn, A. E., Neumann, C., and Burch, G. E., 565*
- Cold, effect of, on vasoconstrictor reflexes in forehead circulation, 278*
- local, reactions of digital artery and minute pad arteries to, 138*
- vascular reactions in the finger to, vasomotor components in, 138*

- Conduction system, auriculoventricular, accessory, in case of short P-R interval and prolonged QRS complex, histologic demonstration of, 454
of vertebrate heart, 841*
- Connerty, Harold V., White, Paul D., and Walsh, B. J., 837
- Convulsive seizures and rheumatic heart disease, association between, 420*
- Cookson, H., 845*
- Cope, O., Brenizer, A. G., Jr., and Polderman, H., 416*
- Cor biloculare, report of case, with persistent truncus arteriosus, 112
- Corner, B., and Perry, B., 845*
- Cor pulmonale, acute, 713*
- pulmonary embolism with or without, with especial reference to electrocardiogram, 573
- Correspondence, 553
- Corsaro, J. F., Stacy, R., and Goodman, J. L., 852*
- Cossio, Pedro, 145
- , Dambrosi, R. G., and Lezica, A. P., 845*
- Cotton, T. F., 563*
- Coumarin, critical study of action of, 851*
- prevention of experimental thrombosis by, 141*
- Crafoord, C., and Nylin, G., 843*
- Crista terminalis, 137*
- Cullen, M. L., Freeman, N. E., and Schechter, A. E., 567*

- Elastic tissue isolated from human aorta, study of elasticity and tensile strength of, 842*
- Elderfield, R. C., Chen, K. K., Steldt, F. A., and Fried, J., 282*
- Electrocardiogram, acute myocardial infarction without deviation of the S-T segment in, 273*
- altered, seen in various hypo-ovarian states, estrogen-like action of desoxycorticosterone acetate upon, 279*
- changes in, after occlusion of pulmonary artery or aorta, 843*
- anatomic cause of, in virus myocarditis of rabbits, 102
- due to trauma, 708*
- effects of calculated therapeutic and toxic doses of digitalis on, 665
- morphine on, 426*
- in diagnosis of coronary disease as compared with hyperactive cardioinhibitory carotid-sinus reflex, 273*
- in epilepsy compared with electrocardiogram in seizures following convulsant drug therapy, 280*
- in Friedreich disease, 708*
- in hyperventilation syndrome, 372
- in pulmonary tuberculosis, clinical significance of concordant inverted initial ventricular deflections in patients with chronic pulmonary tuberculosis, 135*
- in simultaneous increase in size of both ventricles, 418*
- nature of S complex in, 132*

Electrocardiogram—Cont'd

- normal human, effect of exercise and four commonly used drugs on, with particular reference to T-wave changes, 280*
- potential changes in injured cardiac muscle shown by, 558*
- pulmonary embolism with or without acute cor pulmonale, with especial reference to, 573
- short P-R interval and prolonged QRS complex in, histologic demonstration of accessory muscular connections between auricle and ventricle in a case of, 454
- significance of changes in, in malignant hypertension, 275*
- so-called P-pulmonale pattern in, 561*
- standard, changes in, and chest leads during first stages of life, 132*
- T wave in, a new hypothesis of production of, based on electrokinetic phenomena, 562*
- ventricular complex, normal human, factors which affect its direction and its relation to the mean QRS axis, 16
- factors which affect its manifest area and its relationship to the manifest area of the QRS complex, 36
